

Las Vegas Cost Cheat Sheet

Simple planning ranges for a Vegas trip

Start with your trip basics

Category	Planning amount	What the calculator assumes
Hotel — per room/night	\$65–\$500	Budget off-Strip through luxury tiers
Food — per person/day	\$45–\$400	Budget eater through fine-dining tiers
Entertainment — per person/day	\$20–\$400	Free/cheap plans through VIP-style spending
Transport — per day	\$15–\$200	Walk/monorail through private-car service

Two planning charges to add

Resort-fee estimate

\$45 per room/night is the calculator's default estimate. Confirm the current property fee before booking.

Hotel-tax estimate

13.5% of the selected room rate plus the default resort-fee estimate in the calculator. Check the final booking total.

Sample calculator baseline: 3 nights · 2 travelers

Selected setting	Amount	Calculation note
Mid-range room	\$450	$\$150 \times 3$ nights
Moderate food	\$800	$\$100 \times 4$ days $\times$ 2 travelers
Moderate entertainment	\$480	$\$80 \times 3$ days $\times$ 2 travelers
Walk + monorail	\$60	$\$15 \times 4$ days
Default extras	\$450	\$200 gambling + \$100 shopping + \$150 drinks
Resort fee + estimated hotel tax	\$214	$\$135 + \79
Illustrative total	\$2,454	Adjust every input in the live calculator for your trip

Use this sheet carefully

These are planning inputs from the ThingsVegas calculator, not quoted prices or booking offers. Dates, room type, occupancy, taxes, resort fees, transportation choices, food, entertainment, and personal spending can materially change the total. Compare live totals with the same dates and cancellation terms before booking.
